

**THERMAL INSULATION**  
Wood fibre

# guttatermic® BIO

Panel in wood fibre  
**for thermal insulation of  
roofs and walls**

Eco-friendly insulation panel made with wood fibres, perfect for insulating roofs and walls.

**guttatermic® BIO** ensures greater living comfort and higher energy savings, in tune with the needs of a market increasingly focused on natural products.

## ADVANTAGES

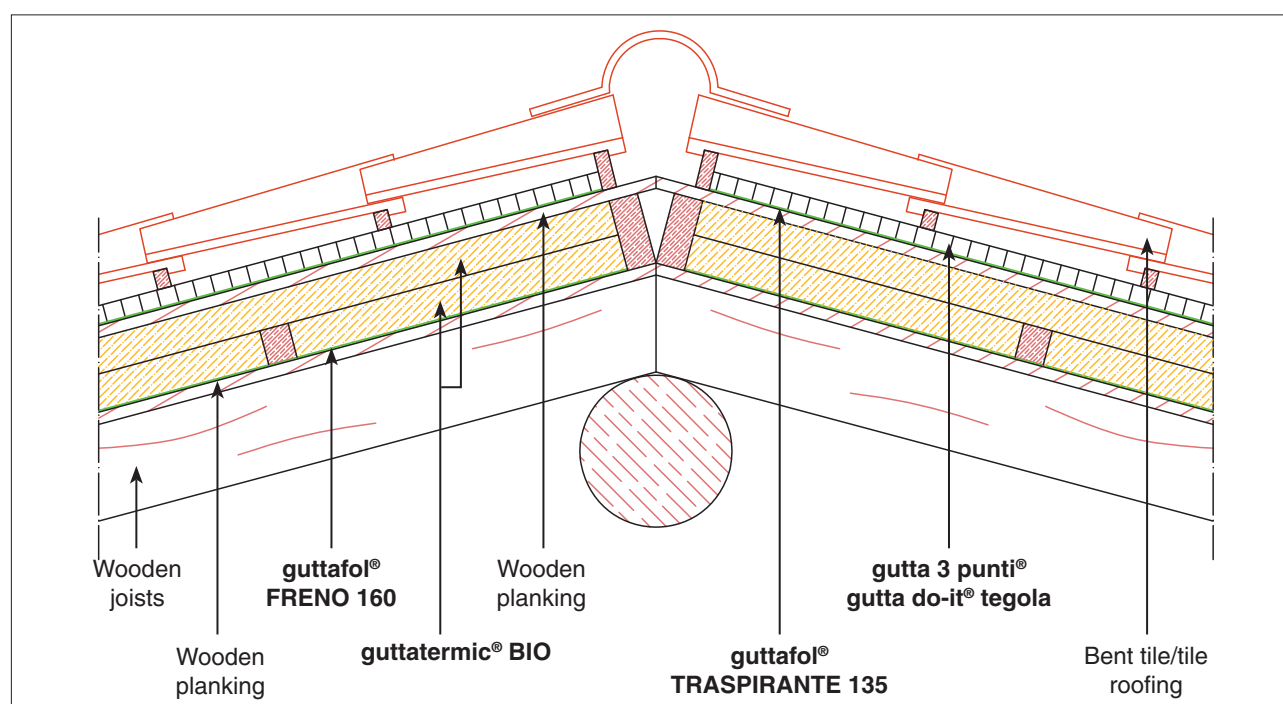

- 10-year guarantee.
- Dry manufacturing process, consequently:
  - ✓ less energy and water consumption;
  - ✓ weights 30% less;
  - ✓ easier handling.
- Natural material.
- Improved sound effect.
- Easy to cut, adaptable size.
- The natural air conditioning ensures a feeling of well-being and great living comfort.

**guttal**

### Technical data

	40 mm	60 mm
<b>Composition</b>	Natural wood fibre	Natural wood fibre
<b>Size</b>	1200 x 600 mm	1200 x 600 mm
<b>Thickness</b>	40 mm	60 mm
<b>Density</b>	110 kg/m³	110 kg/m³
<b>Fire resistance class</b>	E	E
<b>Vapour diffusion resistance</b>	$\mu < 3,6$	$\mu < 3,6$
<b>Thermal conductivity</b>	0,039 W/mK	0,039 W/mK
<b>Packing</b>	120 panels	80 panels
